Valve Reconditioning

As a valve manufacturer we understand that there isn't always the budget to buy new valves, so let us recondition your existing valves. We manufacture all manner of valves so we understand what needs to be done to return a worn valve back to service.

- Slide Valves
- Double Flap Valves
- Rotary Valves
- Guillotine Valves
- Segment Valves
- Diverter Valves
- Spectacle Valves
- Custom Valves

Rotary Feeder Recondition

Heavy Duty Diverter Recondition

Slide Valve and Double Flap Valve Recondition

- Completely strip down valve
- Remove Wear components
- Clean down body: shot blast or pressure wash
- Make modifications if required
- Replace wear components
 - Material test components to match
- Reassemble
- Repaint
- Test and despatch
 - Adhere to customer testing specifications

We have many satisfied customers over several industries including: Cement, Power Generation, Asphalt, Waste to Energy and many more.
